

# BWT Luxury Water®

Affordable Luxury - Gentle for you, your family and your home

The UK'S Best Kept Secret

# BWT Luxury Water®

*Affordable Luxury - Gentle for you, your family and your home*

Up to 90% of UK households recognise the effects of hard water.

- Kitchen surfaces, tiles and taps become scaly, dull and spotted with limescale
- Scale in your kettle and on taps and showers
- Removing limescale takes Time, Chemicals and Scrubbing
- Potential scale damage to your central heating boiler and appliances

BWT Luxury Water® solves all of these issues together with a wealth of additional benefits to you, your family and your home.

Affordable Luxury - Gentle for you, your family and your home

## The UK's Best Kept Secret

Affordable Luxury - That's gentle for you, your family and your home.

### Why Choose Me and BWT

- I have been trained by BWT on this product range
- I am a Best Water Professional and have direct access to BWT
- **In most circumstances a BWT Luxury Water® softener can pay for itself in as little as 3 years**
- The units are easy to install, set up and live with
- All of the models I fit come with a BWT 5 years parts and a 2 year @home labour warranty
- BWT offer a FREE @home commissioning service to ensure your Luxury Water Softener is working effectively and efficiently

\* Central heating boilers become less efficient over time as scale builds up

# BWT Luxury Water<sup>®</sup>

*Affordable Luxury - Gentle for you, your family and your home*

---

Q How long does it take to install BWT Luxury Water<sup>®</sup> softener ?

A Typically about half a day depending on the local conditions.

Q Are they expensive to run?

A No, not at all. They typically use just a few pence of electricity a day and then they need to be occasionally topped up with salt.

Q How much salt will I use?

A Variable, dependant of water hardness but with its unique proportional brining system it optimises both water and salt usage but on average a bag of salt will last about 5/6 weeks.

Q Can I drink the water?

A You can but I would suggest I fit a BWT filtered drinking water kit at the same time as I install your new softener, providing you with fresh tasting water straight from the tap. Whilst softened water is safe to drink for most people it isn't suitable for babies and people on a sodium controlled diet.

Q What is the FREE commissioning?

A Once I have installed your water softener, BWT will send out a commissioning engineer who will check it is set and working at the optimal level for you and your home; this service is free.

Q What is the warranty period

A 5 Year parts and 2 years @home labour for complete peace of mind.
